Unattended Child Policy

The Salamanca Public Library is intended to be a safe and welcoming environment for all our patrons, including children.

Children are encouraged to visit the library, use library materials and computers, and attend library programming. Library staff is available to assist children in using the library.

However, it is important to note the following:

- The library is not a substitute for daycare or babysitting services
- Neither the library nor its staff can assume responsibility for a child's safety or care beyond enforcing library policies
- Library staff is not licensed or trained to provide supervision or childcare and cannot act in the place of the parent or caregiver
- The library is a public building, and parents and caregivers should take the same care in ensuring the safety of their children as they would in any other public space

With these things in mind, the following shall regulate the use of the library by children:

1. Children age 8 and older may use the library unattended, provided they follow the library's rules of patron conduct.
2. If an unattended child age 8 or older does not follow these rules, they may be asked to leave.
3. Unattended children age 8 or older must leave the library at closing time. Under no circumstances will library staff provide a child with transportation. It is the responsibility of the parent or caregiver to ensure that their child gets home safely.
4. Children aged 7 and under must be accompanied and **directly supervised (within eyesight)** of an adult or responsible teen (age 13 and up) at all times
5. If a child under 8 is found unattended, library staff will attempt to contact a parent or caregiver. If a parent or caregiver cannot be contacted, the child will be placed in the care of the Salamanca Police Department.
